11. 11. 0 It is to be regretted that the engraving of this finely composed scene had not been finished by a hand that could as congenially have felt the spirit of West's pencil as did that of Woollett: for had justice been done to the picture, another print would have been added to the portfolio, commanding the universal admiration of the Cognoscenti. As a picture, regarded in the light of splendid furniture, nothing were more worthy a place in the gorgeous apartment of a palace than this. The scene is romantic, and highly poetic in sentiment. The incidental light, from the bursting sun-beam through the storm, creates a magical effect. The waves roll in-shore with a motion perfectly illusive.
